

Building and Van Engineer

16 May 2013

VAN

Repaired Right Tag axle tire

Replaced Left Tag Axle tire (blew up 11 May for Nancy ...)

BUILDING

Had Tweeds locksmith out to estimate changing door locks ... no joy yet, see below

ISSUES

Tweeds coming back on 23 May for second look – will get EGRC door estimated then as well

Fire Marshall coming out on 23 May for Inspection

Have not yet arranged for contractor estimate on separate entrance door for EGRC

Cage mezzanine to isolate eyeglasses

Awning middle rafter needs repair

Rear stabilizer jack needs repair

Rear door needs repair (or replacement of latch mechanism)

Some right side body damage from tire incident on 11 May

Some storage compartment latches not engaging

XM radio antenna cable

Cut down jack plates (didn't get it done over the winter ...)

Repair right rear corner (got parts, but didn't get done over winter ...)
